Hi Katrina,

This is the 2<sup>nd</sup> draft of a 6.5 minute Legacy Learning video we did using data and photos from the Wilcox project that we did for Pb. The purpose of the video is to educate staff about cross-contamination that can occur with this type of soil corer. We realized that was occurring with the cores we were taking in the Wilcox field work.

I think it is ready to declare "final," but I wanted to get your ok before doing so.
